

Date	Speaker	Title
9-Sep-16	Gil Rabinovic, MD	The Many Faces of Alzheimer's Disease: Clinical and Imaging Phenotypes
16-Sep-16	John Constantino, MD	Infant Eye Movement Links Genetic Susceptibility with Social Impairment in Autism
30-Sep-16	Soe Mar, MD	Sorting Out Pediatric Onset White Matter Diseases
7-Oct-16	Michael Chicoine, MD	Surgical Management of Intracerebral Hemorrhage
14-Oct-16	Rob Naismith, MD/Resident CPC	"A 40-year-old woman with a history of HIV and Lupus presents with right-sided weakness."
21-Oct-16	Katherine Matthews, MD	Dystrglycanopathies: Natural History & Clinical Observations
28-Oct-16	Nico Dosenbach, MD, PhD	Functional Brain Network Plasticity
4-Nov-16	Frances Jensen, MD	Shared Neurobiology of Epilepsy and Its Cognitive Comorbidities
11-Nov-16	Pietro Mazzoni, MD, PhD	Motor Control Abnormalities in Movement Disorders
18-Nov-16	Robert Holloway, MD, MPH	Palliative Care in Stroke: An Emerging Field
2-Dec-16	Lumy Sawaki, MD, PhD	Neuromodulation to Drive Upper & Lower Extremity Motor Recovery for People with Neurological
9-Dec-16	Adeline Vanderver, MD	Leukodystrophies: Molecular Characterization to Therapeutics
16-Dec-16	Rami Burstein, PhD	Neuro-Ophthalmology of Color Preference in Migraine Type Photophobia
6-Jan-17	David Holtzman, MD/Resident CPC	"62 Year-Old Man with Progressive Discoordination, Dysarthria and Fatigue"
13-Jan-17	Luigi Maccotta, MD, PhD	Temporal Changes in the Structural and Functional Networks of Epilepsy
20-Jan-17	David Gutmann, MD, PhD	Neurofibromatosis-1 as an informative platform for precision medicine
27-Jan-17	Jin-Moo Lee, MD, PhD	GENISIS: Genetics of Early Neurological InStability after Ischemic Stroke
3-Feb-17	John Zempel, MD, PhD	Advanced Technology for Treatment of Epilepsy
10-Feb-17	David Clifford, MD	NeuroTherapeutics for Infectious Diseases
24-Feb-17	David Carr, MD & Catherine Roe, PhD	Alzheimer's Disease and Driving: From Pre-clinical to Post-mortem
3-Mar-17	Stefanie Geisler, MD	Out of SARM's way – targeting a core axonal degeneration pathway to treat neuropathy and neurodegeneration
10-Mar-17	Joshua Osbun, MD	Advances in Surgical and Intervention Treatment of Cerebrovascular Disease
17-Mar-17	Laura Piccio, MD, PhD	Intermittent fasting in multiple sclerosis and its animal model: starving for an answer?
24-Mar-17	Rejean Guerriero, DO/Peds CPC	15 year old girl with new onset refractory epilepsy and progressive cognitive decline.
31-Mar-17	Brendan Lucey, MD	Sleep: A Potential Novel Modulator of Alzheimer Pathology
7-Apr-17	Nathan E. Crone, MD	Use of intracranial EEG in functional mapping, cognitive neuroscience, and brain-computer interfaces
14-Apr-17	Dr. Barbara G. Vickrey	Translation of Research to Improved Population Health Outcomes: Health Policy as a Propeller for Re-engineered Neurologic Care Delivery
21-Apr-17	Lauren A. Beslow, M.D.	Hemorrhagic Stroke in Children
5-May-17	Laura Balcer, MD	Neuro-Ophthalmology of Concussion
26-May-17	Brent Wright/Resident CPC	"A 77-year-old man with a history of mantle cell lymphoma presenting with imbalance and falls."

2-Jun-17	Bruce Miller, MD	Advances in Frontotemporal Dementia
9-Jun-17	Bruce Campbell, MD	Imaging Selection for Endovascular Thrombectomy
16-Jun-17	Susan Neilsen, PhD	Parkinson Disease in the Age of Big Data
