

Career Opportunities in the Neurosciences

1. Neurology
 - a. Pediatric neurology (with or without subspecialization in many of the categories below)
 - b. Neuromuscle/EMG*
 - c. Epilepsy/EEG
 - d. Sleep*
 - e. Clinical Neurophysiology*
 - f. Movement disorders
 - g. Stroke*
 - i. Neurointerventional
 - h. Dementia
 - i. Neurocritical care
 - j. Neuro-immunology/multiple sclerosis
 - k. Neurorehabilitation
 - l. Neuro-ophthalmology
 - m. Neuro-otology
 - n. Neuro-oncology
 - o. Pain*
2. Neurosurgery
 - a. Pediatric neurosurgery
 - b. Spine surgery
 - c. Cerebrovascular surgery
 - d. Neurotrauma
 - e. Neuro-oncology/skull-base surgery
 - f. Gamma knife/radiosurgery
 - g. Stereotactic and functional neurosurgery (Epilepsy and Parkinson's disease)
3. Neuroradiology
 - a. Diagnostic
 - b. Interventional
4. Neuropathology
5. Psychiatry
 - a. Child and Adolescent
 - b. Geriatric
 - c. Addiction
 - d. Forensic
 - e. Psychosomatic

*=ACGME-approved subspecialty
